BOLO PASHA GIVES UP HOPE OF LIFE

Declares He Will Go to Vincennes, but Says That Others Will Surely Follow.

Paris, April 11.-Bolo Pasha, condemned to death for treason, but granted a reprieve of indefinite dura-tion on his plea that he had important revelations to make to the milldoubt as to what his ultimate fate will be, according to the Petit Journal today. It quotes him as saying to his keeper on Monday:

"I will go to Vincennes, but others will surely follow." (It is at Vincennes that French military executions take place.) Bolo is continuing his "revelations,

but the utmost silence is preserved in official circles as to their trend. He will be heard again today, which is expected to conclude the hearings.

The newspaper La Victore does not take the view that the prisoner's exe-cution is imminent. Whatever importance may be attached to Bolo's eleventh-hour confession, it says, one resuit is certain, which is that several days will elapse before his execution as the things he reveals will have to be investigated and corroborated or disproved, "and the wily Bolo has doubtless gained an indefinite post-

AMERICAN ARTILLERY STOPS GERMAN ATTACK IN ITS FULL STRENGTH

Positions Northwest of Toul Object of Heaviest Stroke Yet Delivered by Enemy Against . Overseas Force-Repulse Complete. **Battle Continued Two Hours.**

With the American Army in France, Wednesday, April 10.—
(By the Associated Press.)—The Germans made an attack against the American positions northwest of Toul just before sunrise this morning and were completely repulsed. Two German prisoners said the enemy planned the attack with a force of 800 men, but that it was stopped in its full strength by the effective fire of the American artillery. The Americans lost no prisoners. One of the German prisoners died later of wounds.

The attack was the heaviest yet made on an American force. Brilliant work by American gunners dispersed the German infantry before they reached the wire entanglements and those of the enemy who got into the wire were accounted for with machine gun and rifle fire. The German attack came after a violent artillery bombardment of three days. A large number of the enemy are believed to have been killed or wounded during the attack, which continued for nearly two hours.

For seventy-two hours before their effort, the Germans had been firing an increasing number of shells and making extensive use of gas shells. At noon yesterday the enemy began a harassing fire against one of our strong points and kept it up throughout the night, dropping hundreds of shells of all calibe on both front and rear positions. The American artillery replied vigorously, the me. in some bat-teries working with their gas masks on for two or three hours at a stretch.

At about 5 o'clock this morning German infantrymen in the front line signalled their batteri's for a barrage and started for the American front line.

The American gunners laid a counter-barrage almost immed ately. The attackers, who were especially trained for this operation, were selected from among the best men in three regiments. They were preceded by shock platoons, but the American barrage caught them before they were able to

The attack was made in a heavy morn-ing mist, but the American gunners wonderful work, considering the poor visibility. As soon as the American barrage lifted American infantrymen climbed

from their shelter and attacked the enemy with heavy machine gun and rifle fire, driving back those who had not been dispersed by the artillery fire. The attack was followed by a violent artillery duel which was still go-ing on at a late hour tonight.

Massachusetts, a republican, chal-lenged a denial by George Creel, chairman of the committee, that "tons" of committee literature had been sent to soldiers in France.

"I impugn Creel's statement, challenge him to prove it, and move to strike it from the report," declared Mr. Treadway. "I didn't make any useless statement. I can produce evidence that tons of Creel literature have been sent to France whether by Creel, I don't know, but it's true. A boy in the trenches wrote to me that Hurley could get more tonnage if less of Secretary McAdoo's speeches were sent over and what we don't want."

"How can one soldier know of tons of matter being sent" interrupted Representative Barnhart, democrat, of Indiana.

"I can't give to the house confiden tial information, but I stand back of my statement," answered Mr. Tread-

Creel's denial was contained in a let, ter to the house from Postmuster-General Burleson in answer to the ry May Indorse
Treadway resolution asking information on how much committee mail had been sent to soldiers. After defeating a motion to table the Burleson report containing Creel's denial, the house adopted another providing for a committee of five members to consider it. Representative Treadway and oth urged the motion adopted, declared the language of Creel's denial was insult-ing and reflected on the house.

USING SECRET WIRELESS

Reports of German Successes Quickly Reach South America.

Montevideo, April 11.-El Telegrafo, in its issue of today, charges that an influential busi-ness man at the head of the pro-German movement in Uruguay is in close communication with the German authorities and that during the recent German offensive he has been advised of German successes in advance of informa-tion reaching the newspaper. The newspaper asserts that it is believed these advices are received through secret wireless stations.

HIDDEN PLANT SUSPECTED. Buenos Aires, April 11.—What is considered evidence that there is a hidden wireless plant some-where in South America is the fact that a German newspaper in fact that a German newspaper in Buenos Aires daily receives at 3 o'clock in the afternoon the German communication which arrives at in light by cable. These dispatches are said to be received from the west coast, and the authorities express the belief that there is a wireless station some-where in the Andes mountains.
